PRIVATE & CONFIDENTIAL

Dear Patient

Thank you for advising us of your forthcoming trip.

We recommend you visit the following website: www.fitfortravel.co.uk to help you make an informed decision on what vaccines are recommended for your travel destination.

If you do not have internet access, please ring Sussex Travel Clinic on 01903 254774 to discuss your travel plans. Some local pharmacies also offer a travel clinic.

If you need a vaccine for Typhoid, Hepatitis A, Diphtheria, Tetanus, Polio or Cholera, these are free under the NHS and you can make an appointment with one of our practice nurses to receive these. All other vaccines need to be arranged with the travel clinic of your choice.

ALL appointments for vaccination should be made by you.

We also enclose a travel advice leaflet which we hope you will find useful.

Yours sincerely

The Barn Surgery
